

# HOW TO UPDATE YOUR CONCEPT NOTE GENERATOR

## v.1.3(20161014)

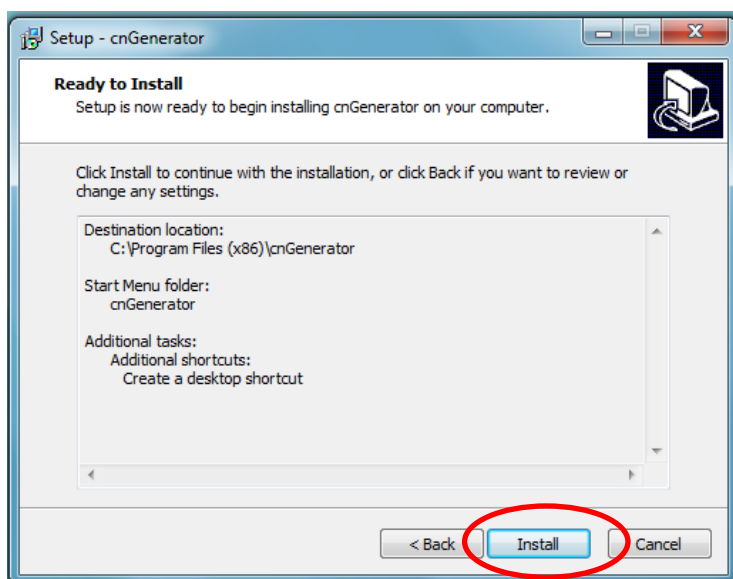

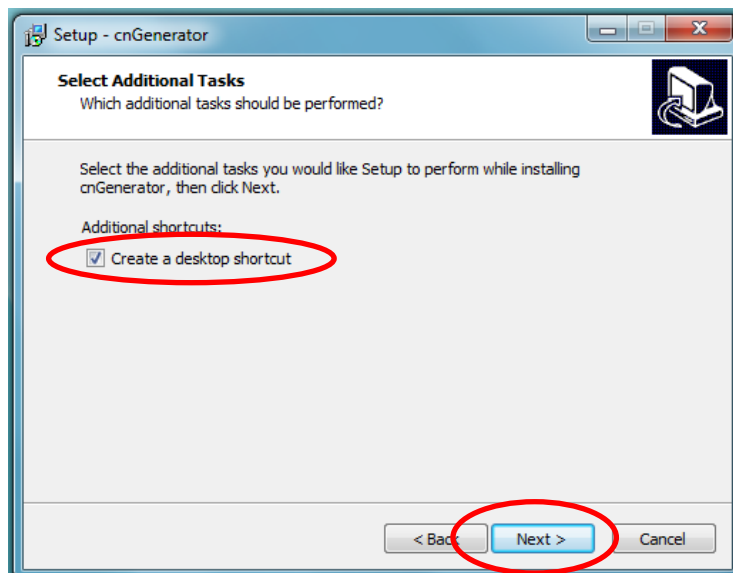

If you installed the previous version of the application for generation of Concept Note – please follow the steps below.

Use the link provided on the website and download the version **v.1.3(20161014)**. Open saved file and follow the installation as shown on the pictures below:

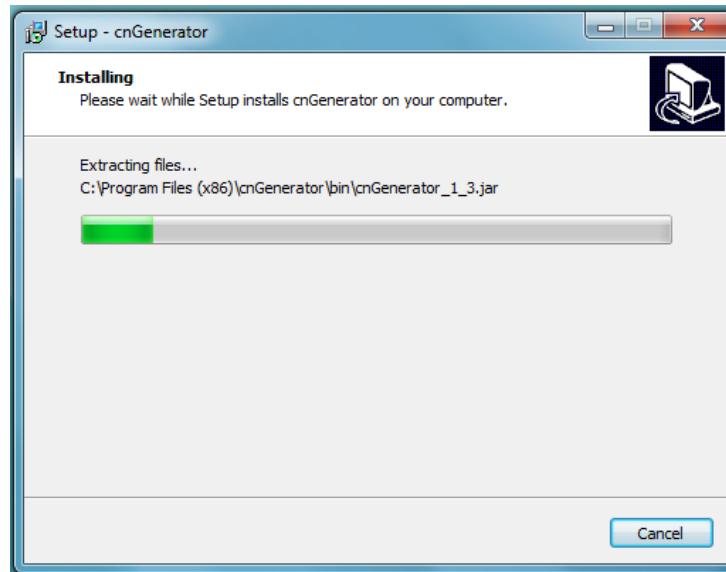

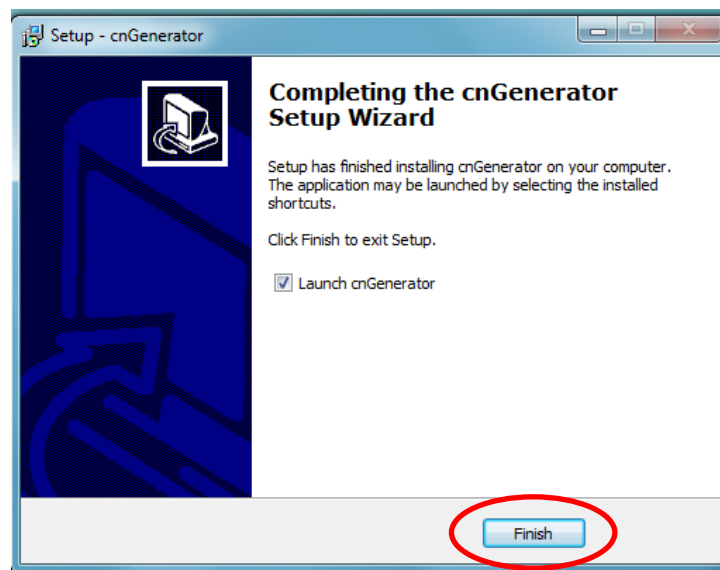

Please create the shortcut on your desktop:

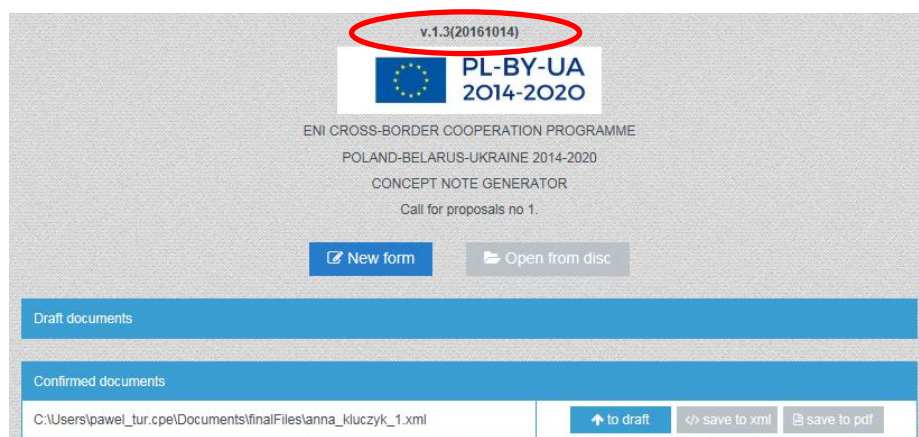

Wait until the installation process is done

Once the installation is over, click Finish and the new version of generator will open automatically.

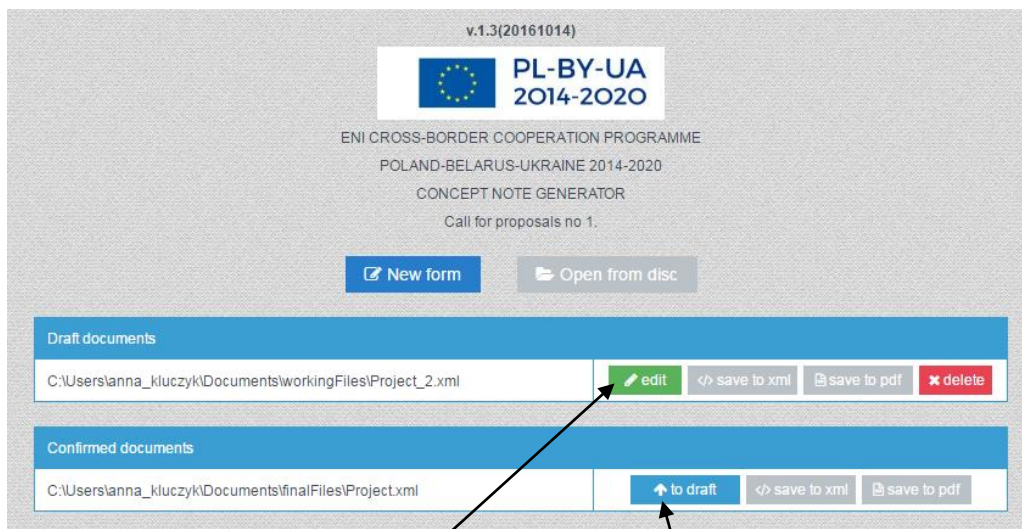

You can verify that you have the newest version: v.1.3(20161014)

**If case you had any Concept Notes already prepared:**

1 – Draft documents -> you can continue your work with draft Concept Notes

2 – Confirmed documents -> go back to draft version -> Edit -> Validate -> Finalise again

Continue your work with draft versions

Go back to draft version – Edit – Validate - Finalise
